

Proxy Servers

PC Proxy Error

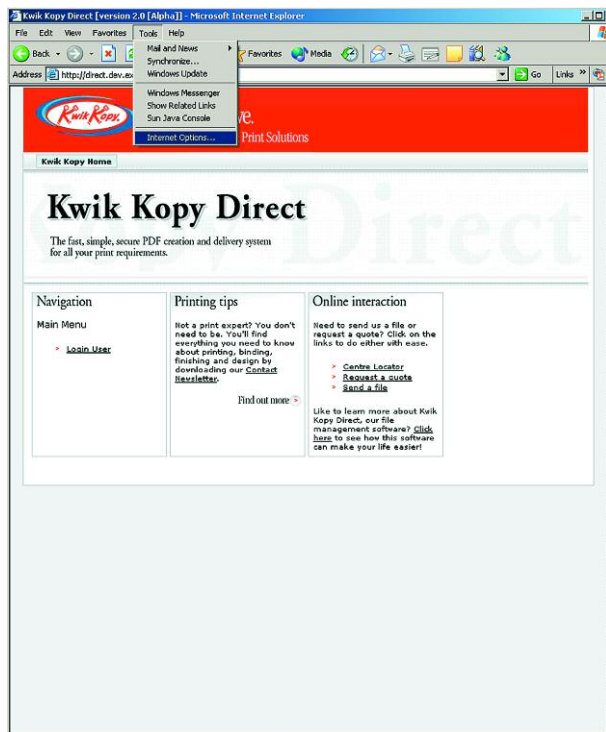

Using Internet Explorer on PC

Some Proxy Servers will deny the uploading of files over HTTP. To avoid this you must add the Kwik Kopy Direct Website to the Exclusions List in your Proxy Server settings. You must be logged in as the Administrator to make changes to your Proxy Settings.

Always consult your System Administrator for assistance before changing any System Settings.

Logged in as **administrator**.
Open Internet Explorer.

Select Tools from the top menu.
Then select Internet Options.

Proxy Servers - continued

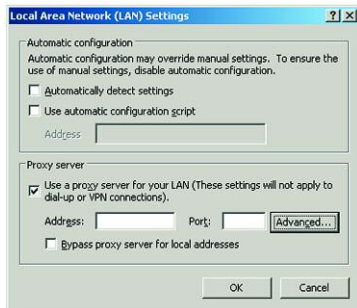

PC Proxy Error

Using Internet Explorer on PC - continued

Select the Connections Tab.
Click on LAN Settings.

Click the Advanced Button next to your Proxy Settings.

Add direct.kwikkopy.com.au to the "Exclusions" box at the bottom and click OK until all the boxes are closed.

Your machine should now bypass the Proxy when sending artwork to Kwik Kopy Direct. If it does not, your Proxy Server does not permit bypassing. You will need to ask your System Administrator to contact D2P directly to resolve this technical issue.
